Objective

Experienced and dedicated web developer with over three years of proven expertise in the industry. Seeking a challenging web developer position to leverage my skills and experience in crafting innovative and user-centric websites. Eager to contribute to a collaborative team environment, fostering learning opportunities and professional growth.

Experience

- **Myanmar Media Linkage Co.ltd** — August 2019 - October 2019
  Web Developer
  I undertook a three-month paid internship as part of a collaborative team of three developers for a Bachelor's degree project. During this internship, I was responsible for the development of a movie website using technologies such as PHP Laravel, JavaScript, Bootstrap, MySQL, Git etc... .

- **Innovative Global Wave Technology** — October 2020 - February 2024
  Developer
  I held the position of a full-stack developer, focusing on front-end development with Angular and React, and handling back-end development with technologies like .NET and Spring Boot.
   Across numerous outsourced projects involving a diverse team of developers.
  I collaborated closely with cross-functional teams, ensuring the timely delivery of high-quality solutions.

Education

- **University of Computer Studies Monywa, Myanmar** — 2014-2019
  Bachelor of Computer Science

Skills

- HTML, CSS, Bootstrap, Tailwind, Javascript, Angular, React, TypeScript, JQuery, C#.Net, Spring Boot , MySql, Git

Projects

- **Global TA&HR**
  It is a Mobile First Cloud based solution designed to manage attendance, payroll, operations. My contribution to the project was as a full stack developer, with a focus on Angular for front-end development and .NET for back-end development.

- **Curisin**
  It is a next-generation digital healthcare ecosystem in India,I honour to be a part of this project, representing a diverse project team comprising developers from Singapore, the United Kingdom, and Myanmar. My role involved serving as a front-end developer, where I utilized Angular and Ionic for mobile application development. Additionally, I had the privilege to expand my skill set by gaining proficiency in Spring Boot for back-end development.

- **Singapore Global Network**
  I was a part of the Singapore Global Network community portal project, collaborating with a team of developers from Singapore, the United Kingdom, and Myanmar. In this capacity, I served as a front end developer, utilizing React to drive the development of the portal.

- **Verum**
  I was engaged in the Verum Insurance broker project, where the development team was a collaboration between professionals from Singapore and Myanmar. In this project, I assumed the role of a backend developer, contributing to its development and success by employing Spring Boot with Kotlin.

Languages

- English, Burmese
